

COMMUNITY INVOLVEMENT IN DECISIONMAKING

It is the desire of the Board of Education to enlist the active assistance of all members of this district in providing the very best educational opportunities possible for this community. Members of the community are encouraged and invited to relay suggestions, ideas for the improvement of our school to members of the Board of Education and to members of the staff.

We solicit community counsel and assistance; however individual members of the Board should not be asked to make decisions which only the Board as a whole can make. Complaints should be taken to the superintendent of schools.

Adopted: 6/17/80
